PRODUCT NAME
Stadium Style Floodlighting

SPECIFICATIONS

EIGHT 1000 Watt Metal Halide Sportsliter Floodlights * Rated for " OUTDOOR USE"
 480 Volt - 3ph-60hz * 10kw Power Source Requirement
UL CERTIFIED FIXTURES/ELECTRICAL
 Applications: Plant Turn-a-Rounds * Disaster Relief * Construction Sites

NOTE: Unit comes Standard with forklift pockets

Elevated to above 40 feet will illuminate over 10 acres

SCOPE OF DESIGN: 8-1000 watt 480 volt Metal Halide Floodlights for Stadium Style Floodlighting Projects. Comes Standard with a 150ft power cord with a single ON/OFF power switch. Fixtures mounted within a steel Cage Frame 4 point lifting to elevate floodlight system 40ft above grade for optimum lighting performance. At 40 feet floodlights will illuminate up to 10 acres of area. At lower heights floodlights will produce a more intensified light that will increase the working foot candle levels improving work performance and job safety.

DIMENSIONS: 51.0ft L x 5.0'W x 5.6' T

WEIGHT: 1000 lbs
