

**120 Volt Lighting**  
**EXPLOSION PROOF LIGHTING**  
 8 - 400W METAL HALIDES  
**CLASS 1 DIVISION 1**

**MODEL#**  
**RNT: 0S-ELEC-8LEXP-120V-400W**

**PRODUCT NAME**  
**Stadium Style Floodlighting**

**SPECIFICATIONS**

EIGHT 400 Watt Metal Halide Class 1 Division 1, Grp. CD Explosion Proof Rated  
 120 Volt - 1ph-60hz \* 5kw Power Source Requirement  
**UL CERTIFIED FIXTURES/ELECTRICAL**  
 Applications: Offshore Platforms, Work Boats Wellheads Repairs

NOTE: Unit comes Standard with forklift pockets

**Elevated to above 30 feet will illuminate over 2 acres**

**SCOPE OF DESIGN:** 8-400 watt 120 volt Metal Halide Floodlights for Explosion Proof rated Floodlighting Projects. Comes Standard with a 150ft power cord with a single ON/OFF power switch. Fixtures mounted within a aluminum Cage Frame 4 point lifting to elevate floodlight system 30ft above grade for optimum lighting performance. At 30 feet floodlights will illuminate up to 2 acres of area. At lower heights floodlights will produce a more intensified light that will increase the working foot candle levels improving work performance and job safety.

**DIMENSIONS:** 10.0ft L x 5.0'W x 5.6' T

**WEIGHT:** 500 lbs
